## MeetingPlace® Test Drive

### At a Glance:

- Experience the benefits of MeetingPlace rich-media communications risk-free
- Leverage your existing network to reduce transport toll charges and recurring conferencing fees
- Host meetings securely behind your firewall without sacrificing the ability to invite third-parties via the Internet
- Enjoy seamless integration with other enterprise applications such as email systems

### Experience Rich-Media Communications

Trying to determine whether Cisco's MeetingPlace is right for your organization? Take advantage of Forsythe's MeetingPlace Test Drive and experience it yourself. Forsythe's MeetingPlace Test Drive is a risk-free engagement that enables you to try MeetingPlace in your own environment before making a purchase decision. During the trial period, your users will be able to leverage all of the benefits that MeetingPlace has to offer so they can see how easy and effective rich-media conferencing can be.

Cisco MeetingPlace is a complete multimedia conferencing solution that fully integrates voice, video and Web conferencing capabilities to make your hosted meetings more natural and effective. MeetingPlace resides behind your organization's firewall to deliver advanced security to your meetings, while still allowing you to invite external parties through the Internet. Leveraging your existing IP network, MeetingPlace changes the game for conferencing services by eliminating the pay-per-use pricing model of conferencing providers to produce significant cost savings.

### The MeetingPlace Test Drive Approach

The Forsythe MeetingPlace Test Drive is a fully functional 24-port audio and Web conferencing solution housed in Forsythe's data center. During the trial, you have the opportunity to create up to 24 user profiles for the system, giving these selected users the ability to schedule, attend, manage and conduct meetings using MeetingPlace. All other employees will be able to participate in meetings during the trial by signing on as guest users.

Forsythe's MeetingPlace Test Drive includes the following deliverables:

- MeetingPlace Welcome Kit
- Custom configuration of the demo system
- Outlook integration
- Product overview presentations
- Trial user training sessions
- Two weeks of unlimited MeetingPlace usage
- Dedicated Forsythe support

### More than a Demo - It's an Experience

With Forsythe's MeetingPlace Test Drive, your organization will have full access to the features of the MeetingPlace rich-media conferencing solution, as well as the training and guidance you need to capture maximum value from the program. For the two-week trial period, MeetingPlace can be your organization's rich-media conference solution.

You can put the system to the test in day-to-day business operations so you can see firsthand the value that MeetingPlace brings to your organization. At the conclusion of the Test Drive, you will have a real understanding of the solution and its capabilities, and will have taken the first step towards training your users should you decide to purchase the system.

## Ensuring Your Satisfaction

Forsythe ensures your satisfaction throughout the MeetingPlace Test Drive by providing your organization with initial and ongoing support. Forsythe will custom configure MeetingPlace to meet your specific requirements and integrate the system with your Outlook environment. Additionally, Forsythe will provide system overview presentations and end user training sessions prior to the start of the trial period. You will also have a dedicated Forsythe project manager who can answer any questions or address any concerns you may have throughout the program.

## Key Benefits of Cisco MeetingPlace

### Efficient, Cost-Effective Virtual Meetings.

MeetingPlace allows your users to setup and conduct virtual meetings that are as effective as face-to-face meetings, at a fraction of the cost by leveraging enhanced voice, video and Web capabilities as well as your existing IP network.

### Integrated Meeting Scheduling and

**Participation.** MeetingPlace offers a browser interface and seamless integration with Microsoft Outlook and IBM Lotus Notes calendars. Meeting invitees automatically

receive notification by email or calendar invitation and can attend rich-media conferences with a single click.

**Advanced Conference Control.** Integrating voice, video and Web conferencing, MeetingPlace delivers advanced in-meeting control. At any point during the meeting, users can quickly see who is in attendance, how they are attending (voice, video or Web), who is speaking and who is sharing documents. Users with the appropriate privileges can control a broad range of meeting characteristics, including Web conferencing permissions (mute, listen only), recording and meeting security.

**Powerful Web Conferencing.** From a firewall-friendly browser console, users can share any application, document or website, whiteboard or presentation for participants to view, annotate and discuss in real-time. For highly interactive meetings, participants can pass control of the shared application securely, while chat and polling capabilities enable private communication and group feedback.

### Forsythe – Your Business Partner for MeetingPlace.

Forsythe is committed to being your business partner for MeetingPlace and Cisco solutions. As one of a select group of MeetingPlace certified partners, Forsythe has successfully deployed the solution for organizations of all sizes and industries. Our expertise spans from pre-deployment conferencing optimization assessments to post-deployment user training.
