

Security Training & Education

CISSP Certification Education

About Forsythe Professional Training Services:

Forsythe provides the superior professional training organizations need to meet the ever-changing demands of the IT industry. Our courses are taught by certified systems engineers who draw from real-world experiences to create an optimal learning environment. Forsythe's proven track record demonstrates our commitment to quality and excellence.

CISSP Certification Education Official (ISC)² Sanctioned Education Supported by TSI and (ISC)²

The Certified Information Systems Security Professional (CISSP) is regarded as one of the most sought-after industry-recognized security certifications in the world.

Many organizations have committed to the fact that their security professionals need to carry this credential to enhance their professional abilities and talents — it's important to the success of mission-critical projects within their organizations.

Whether the need is for internal security personnel that carry a credential such as this, or personnel who are customer facing to present themselves as more credible, the CISSP fulfills these goals for our customers.

Complying with the 8570.1 Mandate

CISSP helps organizations meet the federal established mandate 8570.1 as required by the U.S. Department of Defense. For details about special federal and government pricing, contact us at 800-357-4311.

Advantages of CISSP Certification

- Increased professional credibility
- Further professional education
- Increased security knowledge

- Ability to communicate on a wide range of security topics with peers in the industry
- Increased value to the organization as individuals have achieved security certification
- Provides employees with a solutions orientation and broader understanding of IS security
- Provides access to global network, subject matter, and domain experts
- Provides preparation for federal contractors, suppliers, partners, and others who carry IT responsibilities for federal IT departments

CISSP Certification Education

Standard — Five days

Standard with Mentor Package — Six days

Course with Mentor Package and Exam — Seven days (requires a minimum of ten people)

Mentor package includes evening and Saturday review sessions with practice exam questions.

Authorized Training Programs

Forsythe is an authorized training center for Check Point, Citrix, RSA and Nokia, and a training provider for Cisco, Microsoft, Symantec and VMWare. Forsythe also offers official (ISC)² CISSP certification training using (ISC)² certified instructors. Contact Forsythe's training department for a full list of additional offerings.
