

Security Training & Education

Nokia Security Administration

Nokia Training

Forsythe technical training covers the full portfolio of Nokia Security products. Our Nokia training courses will enable you to:

- Understand the full functionality of Nokia products to maximize your investment
- Participate in real-world scenarios to give you first-hand experience in using Nokia products
- Learn how to use your Nokia products more efficiently to increase your productivity and reduce IT downtime

NSA Foundation

This two-day instructor-led course introduces you to the Nokia IP Security Platform. The course provides the information and the hands-on experience necessary to deploy, manage and maintain the Nokia family of IP security products. Lab exercises enable you to learn operational skills necessary to effectively manage Nokia IP Security Platforms.

NSA High Availability

This one-day instructor-led course covers theory and practice of High Availability in a complete Check Point-on-IPSO security system. The course is designed to be hands-on, and students will implement in the course of their lab exercises a security system with minimal — known and quantified — single points of failure.

About Forsythe Professional Training Services:

Forsythe provides the superior professional training organizations need to meet the ever-changing demands of the IT industry. Our courses are taught by certified systems engineers who draw from real-world experiences to create an optimal learning environment. Forsythe's proven track record demonstrates our commitment to quality and excellence.

NSA Connectivity

This one-day instructor-led course covers theory and practice of routing in a complete Check Point-on-IPSO Security system. The course is designed to be hands-on, and students will implement in the course of their lab exercises an entirely dynamically routed network with routing security, firewall security, and routing over VPN.

Authorized Training Programs

Forsythe is an authorized training center for Check Point, Citrix, RSA and Nokia, and a training provider for Cisco, Microsoft, Symantec and VMWare. Forsythe also offers official (ISC)² CISSP certification training using (ISC)² certified instructors. Contact Forsythe's training department for a full list of additional offerings.

Mission Statement

The mission of our training centers is to provide you with superior technical and professional training that will help you achieve your business goals and objectives while maximizing the return on your IT investments.
